### **AFSMK: Connecting Danish Art and the World of Art**

In our rapidly changing world, SMK believes that the art museum plays an important role in helping to build a more creative and reflective society. SMK aspires to develop a 21st century museum which is a gathering place where people of all ages, nationalities and walks of life come to learn from one another and explore together using art as the medium through which we can all connect

The generous and open minded members of AFSMK are essential to making this vision a reality. AFSMK is a public charity (501c3)

established to strengthen the ties between Statens Museum for Kunst and the Gallery's American friends and audiences with chapters in the United States and Denmark.

AFSMK Patrons' contributions support the contemporary exhibition programme that provides a platform for emerging Danish artists, the ground breaking work of SMK's conservation centre which is making important contributions to our global understanding of art history create new audiences for SMK.

AFSMK members are passionate about art and are important ambassadors for SMK.

We wish to provide you with exclusive opportunities to dig deeper into the folds of the museum to develop your own learning with likeminded people and become a part of the SMK family through a series of special activities and events held in both Denmark and in the United States each year.

**MIKKEL BOGH**

Museum Director and Member of the Board of Directors of American Friends of Statens Museum for Kunst
